Parkville, 3052

Genetics Dept.,
4th April 1970.

Dear Dr. Kirk,

I meant to give you
a bit more warning of the day
of arrival of the blood samples,
but Baxter rather interfered.

A further batch is
coming next week, and I will
put them on to the Ansett
flight 394, Wednesday 8th April,
due in Canberra 2.45 P.M.

Kind regards,

Rodney Angell.
